

Depression and Bipolar Support Alliance of San Diego

DBSA San Diego presents ...

Jim Hatton, Ph.D., M.F.T.

How much do you worry about the possibility you might have OCD?

Dr. Hatton will be presenting an introduction to Obsessive Compulsive Disorder (OCD) and related OC spectrum disorders.

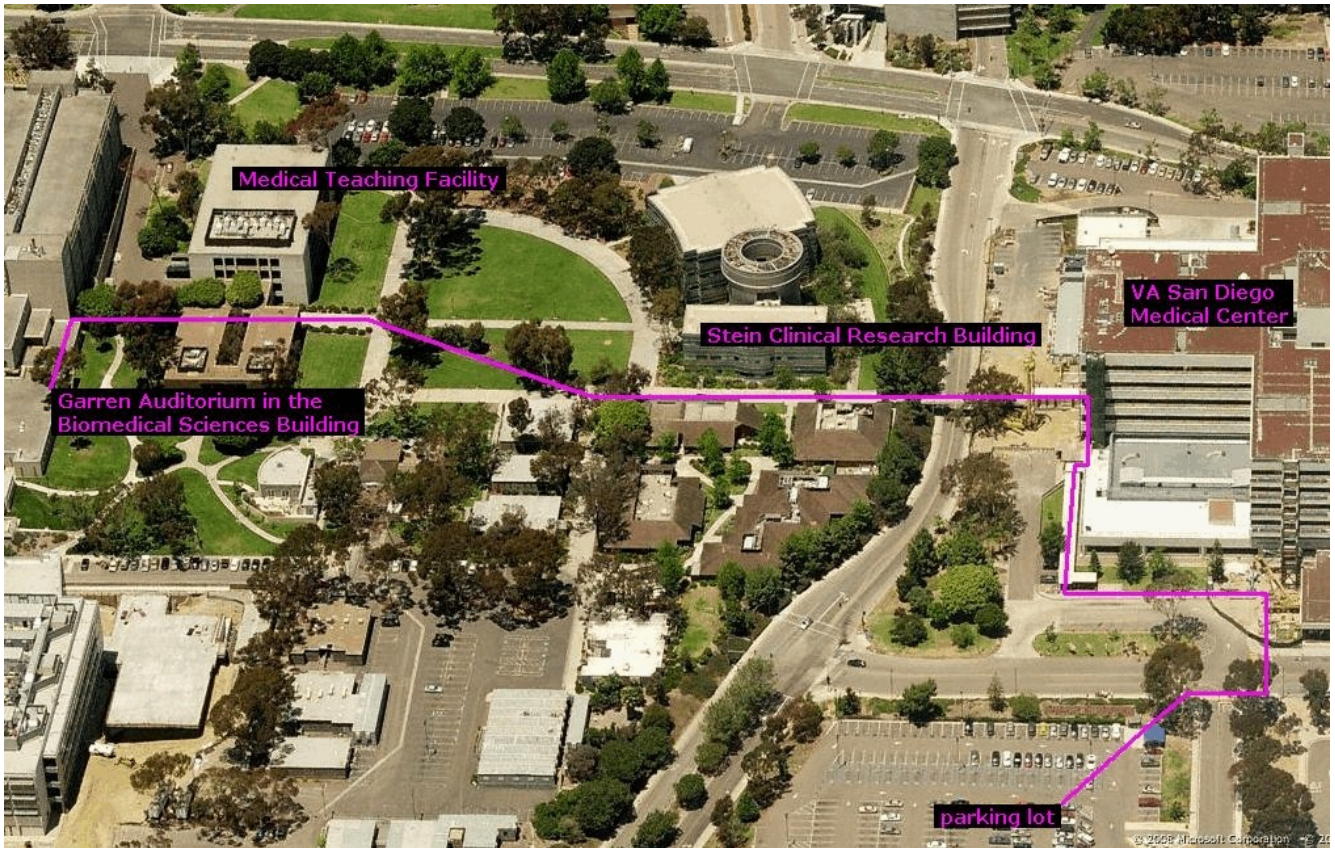

When Monday, 05 October 2009
6:00pm – 7:30pm

Where Garren Auditorium
Biomedical Sciences Building, Medical School Campus
University of California, San Diego
La Jolla, California

Jim Hatton was born back in the Age of Nicknames, and is actually an avatar for his operator, James. Jim was created in the basement lab of the Theoretical Humor building at the University of Altoona. He was removed from the home in his teen years for the protection of the consuming public, and was placed in the W. C. Fields Home for Annoying Children. It was there that he met the woman who would be a guiding force for most of his life – his mother.

After being begged by the high school principal to leave school early, Jim graduated *summa cum loudly* from Michigan State University where he majored in Animal Husbandry (until they caught him at it one day), finally achieving his Ph.D. (phony doctorate) in Psychology and Neuroscience from UCSD. He has run the same support group for people with OCD for the last 18 years and still hasn't gotten it right. Today's talk marks the culmination of his backward slide into obscurity. When not otherwise occupied, Jim runs the *San Diego Regional Program for Obsessive Compulsive Disorders and Trichotillomania*.

There is *free parking* in the VA San Diego Medical Center parking lot. Garren Auditorium is a short walk over the footbridge. Follow the signs for about one block. *See the map on the reverse side for detailed directions.*

1. Start in the **parking lot** and walk to the bus stop in front of the **VA San Diego Medical Center** (usually called the VA Hospital in La Jolla).
2. Walk west to the covered outdoor corridor, turn right and walk north down that corridor, along the western edge of the hospital, until you turn left (west) when you get to the footbridge.
3. Walk over the footbridge that crosses Villa La Jolla Drive.
4. Walk past the **Stein Clinical Research Building** (on your right).
5. On your right, you will see a diagonal asphalt path starting near a fire hydrant. Walk down that path to the **Medical Teaching Facility** building.
6. When you reach the end of the asphalt path, walk under the overhead walkway connecting the two parts of the building. Continue until you reach the next building, which is the **Biomedical Sciences Building**.
7. Enter the large glass sliding doors and turn immediately left down a corridor, where there is a sign saying **Garren Auditorium** is in Room 1105.
8. Walk down the corridor, turning right, then left.
9. Enter where it says Room 1105 (the bottom/front of the room, where the lecturer will be) and take a seat. Alternatively, continue until you see a staircase going up on your right. This will take you to the top/back of the auditorium.

Signs will be posted along the route from the parking lot to Garren Auditorium.
